INDEX TO VOLUME XVI.

A.

Aerial Navigation, 30.
Astronomical Expedition to Australia, *C. A. Chant*, 249, 281, 319.
Astronomical Notes, 69, 246, 308.
Astronomy at the American Association Meeting, *J. A. Pearce*, 37, 72.
Astronomy in Bermuda, Notes on, *D. B. Marsh*, 322.
Air, Upper air currents, 161, 268.
Algol: How to observe its Light Variations, *J. A. Pearce*, 302.
Aurora, Audibility of the, *J. G. Griffin*, 255; Audibility, etc., 208, 309, 343; Height, 278.

B.

Barnard, E. E., Star Streams, 51.
Bell, Louis, Early Evolution of the Reflector, 179.
Binary, see Spectroscopic Binaries.
Book and Publication Reviews, 69, 71, 201, 246, 272, 308, 342.

C.

Calendar Reform, *Carl Reinhardt*, 105.
Campbell, J. W., Orbit of Spectroscopic Binary H. R. 5992, 152.
Campbell, W. W., Total Eclipse of Sept. 21, 1922, 180.
Cepheid Variation, Second note on, *R. E. DeLury*, 151; 276.
Chant, C. A., Popularising Astronomy, 101; Astronomical Trip to Australia—On the Way, 249; Eclipse Expedition to Australia—from Auckland to Port Hedland, 281; The Camping Place is reached, 319; see also "Notes and Queries."
Collins, J. R., Theories of the Universe, 73.
Crombie, W. T. B., The Saros, 313.
Curtis, H. D., Stellar Luminosities, 209.

D.

DeLury, R. E., and J. L. O'Connor, Measurement of the Sun's Distance from its Spectrum, 102.
DeLury, R. E., Errors in Micrometer Measurements, 150; Second Note on Cepheid Variation, 151.
"Dimensions" and other Things, 345.
Dimensions of Stars, 27.
Dominion Observatory Field Parties, 168.
Drake University Municipal Observatory, *D. W. Morehouse*, 169.

E.

Eclipse of Sept. 21, 1922, *W. W. Campbell*, 186, 311.
Einstein, see also Relativity, 118.
Espin, T. E., Dark Structures in Milky Way, with Catalogue and Description, 218.

F.

Fisher, W. J., Old Observations bearing on the Duration of Sunrise and Sunset, 261.
Fraser, J. B., Influence of Astronomy on Medicine, 152.

G.

Gegenschein, 275.
Geodetic Surveys of U.S. and Canada, 167.
Geodetic Surveying, 240.
Gravity, 63.
Griffin, J. G., Audibility of the Aurora, 255.
Grubb, H., On the Adjustment of Equatorial Telescopes, 15.

H.

Halo, Bright Solar, 164; seen by two observers 70 miles apart, 206; and related Phenomena, 113.
Harper, W. E., Spectroscopic Orbit of Boss 3793 (following), 305; Orbits of Spectrographic Components of Boss 4622, 9; Two Spectroscopic Binary Orbits, 131.
Henderson, J. P., Wireless in Mackenzie Basin, 48; Chronographic

Young, R. K., Orbit of Spectroscopic Binary Boss 5442, 12.

CONTENTS OF VOLUME XVI

I. JANUARY

		Page
Astronomy in a Poet's Life	*Albert Durrant Watson*	1
The Orbits of the Spectroscopic Components of Boss 4622	*W. E. Harper*	9
Orbit of the Spectroscopic Binary Boss 5442	*Reynold K. Young*	12
On the Adjustment of Equatorial Telescopes	*Howard Grubb*	15
Meetings of the Society, at Victoria, 27; at Winnipeg, 28; at Toronto, 29		27
Notes from the Meteorological Service		32
Notes and Queries		35

II. FEBRUARY

Astronomy at the American Association	*J. A. Pearce*	37
Astronomy in a Poet's life (concluded)	*Albert Durrant Watson*	39
Wireless in the Mackenzie Basin	*J. P. Henderson*	48
Star Streams	*E. E. Barnard*	51
Meteoric Astronomy	*C. P. Olivier*	54
The Stars of the β Canis Major Type	*F. Henroteau*	58
Meetings of the Society, at Ottawa, 62; at Montreal, 63; at Winnipeg, 65		62
Notes from the Meteorological Service		66
Astronomical Notes, 69; Notes and Queries, 71		69

III. MARCH

Theories of the Universe	*J. R. Collins*	73
Annual General Meeting		82
Temperature Regulation of Spectroscope and Mirror	*J. S. Plaskett*	91
Abstract of Papers presented at the Recent Joint Meetings of the American Association for the Advancement of Science and the Royal Astronomical Society of Canada		101
The Reform of the Calendar	*Carl Reinhardt*	105
Meetings of the Society, at Winnipeg, 112; at Toronto, 113		112
Notes from the Meteorological Service, 115; Notes and Queries, 118		115

IV. APRIL

Comparison of Wireless Time Signals from Annapolis and Lafayette	*R. Meldrum Stewart*	121
Chronographic Recording of Wireless Time Signals	*R. Meldrum Stewart* and *J. P. Henderson*	125
Two Spectroscopic Binary Orbits	*W. E. Harper*	131
The Pickering Series and Bohr's Atom	*H. H. Plaskett*	137
Abstracts of Papers presented at the Recent Joint Meeting of the American Association for the Advancement of Science and the Royal Astronomical Society of Canada		150
Meetings of the Society, at Victoria, 154; at Winnipeg, 156; at London, 157; at Montreal, 158; at Ottawa, 159; at Toronto, 160		154
Notes from the Meteorological Service, 162; Notes and Queries, 164		162

V. MAY-JUNE

Drake University Municipal Observatory	*D. W. Morehouse*	169
Note on the Manufacture of Telescope Discs in America	*Donald E. Sharp*	175

V. MAY-JUNE—*Continued* Page

Notes on the Early Evolution of the Reflector - - *Louis Bell* 179
The Total Eclipse of September 21, 1922 - - *W. W. Campbell* 186
Meetings of the Society, at Winnipeg, 191; at Victoria, 193; at London, 195; at Toronto, 195 - - - - - - - - 191
Notes from the Meteorological Service, 199; Book Reviews, 201; Notes and Queries, 205 - - - - - - - - - 199

VI. JULY-AUGUST

Stellar Luminosities - - - - - - *Heber D. Curtis* 209
Dark Structures in the Milky Way (second contribution), with Catalogue and Description - - - - - - *T. E. Espin* 218
Percival Lowell—His Life and Work - - - *J. A. Paterson* 230
Meetings of the Society, at London, 240; at Toronto, 240 - - - 240
Notes from the Meteorological Service, 244; Astronomical Notes, 246; Notes and Queries, 247 - - - - - - - - 244

VII. SEPTEMBER-OCTOBER

An Astronomical Trip to Australia—on the Way - - *C. A. Chant* 249
Audibility of the Aurora - - - - - - - *J. G. Griffin* 255
Old Observations Bearing on the Duration of Sunset and Sunrise *Willard J. Fisher* 261
Observations of Falling Meteorites *George P. Merrill* and *Arthur Taber Jones* 263
Meetings of the Society, at Victoria, 267 - - - - - - 267
Notes from the Meteorological Service, 269; Book Reviews, 272; Notes and Queries, 274 - - - - - - - - - 269

VIII. NOVEMBER

The Eclipse Expedition to Australia—From Auckland to Port Hedland *C. A. Chant* 281
The Star of Greatest Known Mass - - - *J. S. Plaskett* 284
A Method of Calculating the Exact Point of Intersection of "Sumner Lines" in Navigation - - - - *Clarence E. Woodman* 294
Algol: How to observe its Light-Variations - - *J. A. Pearce* 302
The Spectroscopic Orbit of Boss 3793 (following) - - *W. E. Harper* 305
Astronomical Notes - - - - - - - - - 308
Meetings of the Society, at Toronto, 309; Notes and Queries, 311 - 309

IX. DECEMBER

The Saros - - - - - - - - *W. T. B. Crombie* 313
An Astronomical Expedition to Australia—the Camping Place is Reached *C. A. Chant* 319
Notes on Astronomy in Bermuda - - - - - *D. B. Marsh* 322
My Trip to Mars - - - - - - - - *Stella* 325
Meetings of the Society, at Winnipeg, 335; at Montreal, 337; at London, 339; at Toronto - - - - - - - - 340
Book Reviews, *General Astronomy*, by Jones - - - *C. A. Chant* 342
Notes and Queries - - - - - - - - - 343
Index - - - - - - - - - - - 346
